How Does PhilNet: Philanthropy Network for Broward work?

Once a proposal is submitted through PhilNet, it is thoroughly reviewed by Community Foundation staff who determines if the proposal represents an innovative project that would address an area of considerable need and have significant positive impact in the community. If so, the proposal will be posted on PhilNet and is then available for staff to easily find and recommend to our Fundholders and our philanthropic partners. PhilNet is also a unique services for our donor advised Fundholders (those Fundholders who make grant recommendations directly from their charitable Funds). They have access to PhilNet and are able to search for projects that meet their interests.

An account is required for all nonprofits to use PhilNet. Once registered, you will be able to:

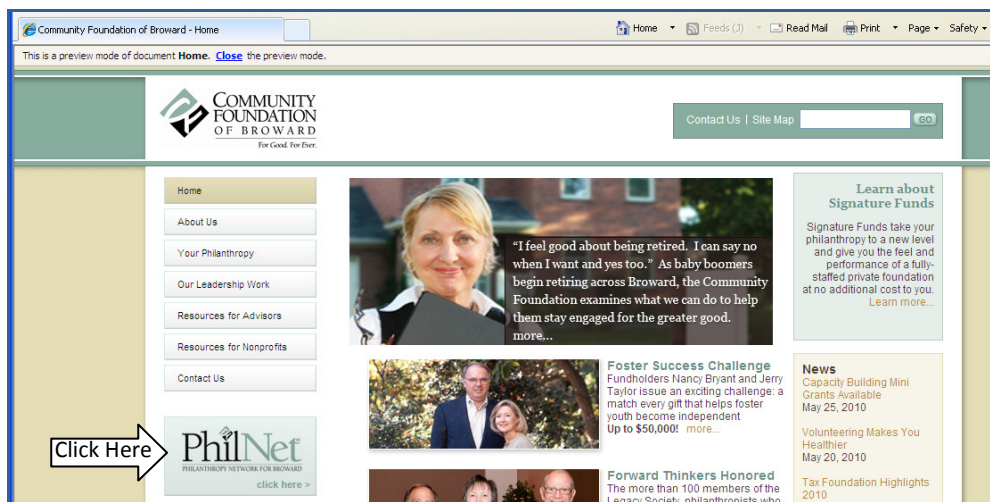

- submit proposals for grants
- update organizational information
- track draft and submitted proposals

Please review the following material to help you better understand the process and get you started. If you have any questions, please call Nancy Rogan, manager of grants and initiatives, 954-761-9503.
